Software developer with 1 year of experience in building web apps, working with databases, and using dbms like Mysql with Python, react native etc. Strong in debugging, problem-solving, and writing efficient code.

TECHNICAL SKILLS

Python	HTML/CSS	GITHUB
MYSQL	GIT	Javascript
Django	DSA	React Native

EXPERIENCE

MicroMap IT & GIS Consultancy   **Jan 2024 - Jan 2025**

- Worked as a Software Developer at MicroMap for over 1 year, specializing in Python and Django and React Native to develop mobile applications and backend systems, delivering scalable solutions, enhancing app performance, and collaborating with teams to meet project goals.
- Led the development of key features, optimizing code and ensuring seamless integration between frontend and backend systems.

Bringmark   **july 2023 - Dec 2023**

- Completed a 6-month internship at Bringmark, where I gained hands-on experience in real-world projects, contributed to software development tasks, collaborated with teams, and improved my skills in Python programming and problem-solving.Coordinated testing and validation, ensuring compliance with industry standards.

PROJECT

ATM SIMULATION

- Developed a system to track and display recent transactions, allowing users to view a summary of their actions (e.g., deposits, withdrawals).Coordinated testing and validation, ensuring compliance with industry standards.
- Created features for users to check their balance, withdraw cash, and deposit money, with real-time updates to their account balance.

Cue score game.

- Cuescore is an online platform for managing and following cue sports like pool and snooker. It allows players to track their matches, view rankings, and join tournaments. Users can also follow live scores and results in real time.

EDUCATION

World College Of Technology & Management   **Aug 2019 - Oct 2023**

- Maharishi Dayanand University
- Computer science and engineering

CRRIT   **May 2016 - May 2019**

- Board of technical university
- Relevant coursework in Structural Design and Project Management.
